ABOUT VMRF (DU)

Vinayaka Missions Research Foundation (VMRF) is a premier university known for its diverse and inclusive academic environment. It offers professional education across a wide range of disciplines, including medicine, engineering, and management. VMRF promotes holistic growth and global opportunities for its students. The university stands among the largest in India, embodying a legacy of over three decades. As its 25 years Silver Jubilee celebration, Vinayaka Mission's Research Foundation (Deemed to be University) continues its journey of enlightenment, empowerment and innovation.

ABOUT VMSDC

Our institution is committed to delivering quality dental education to students from diverse socio-economic backgrounds. We offer a comprehensive undergraduate program, postgraduate specializations, PhD and diploma courses in Dental Mechanic and Dental Hygienist. The campus boasts a well-equipped library with WiFi campus, remote access facilities. Proudly, our college is accredited with NAAC 'A' grade and NABH certification, reflecting our dedication to excellence in education and healthcare standards.

ABOUT WORKSHOP

In honor of our Silver Jubilee year, the Department of Oral Medicine and Radiology proudly presents a Workshop on Forensic Odontology, focusing on the scientific methods used in dental and cranial age estimation in children and adults, as well as attrition and secondary dentin deposition in adults.

This workshop will provide valuable insights into forensic applications in dentistry, exploring advanced techniques used for age determination and their role in legal investigations.

MESSAGE FROM THE ORGANIZING COMMITTEE

With immense pride, the Department of Oral Medicine and Radiology welcomes you to our Workshop on Forensic Odontology, organized as part of our VMRF(DU) Silver Jubilee celebrations. This event is one of the series of events going to be organized which marks a significant milestone in our journey of academic excellence and innovation. This workshop is designed to bring together experts, students, and professionals to engage in insightful discussions and hands-on learning experiences. We look forward to your enthusiastic participation and a memorable learning experience!

HIGHLIGHTS OF THE PROGRAM

- Basics of forensics
- Scientific methods in forensics
- Discussion on real case experiences
- Hands-on radiographs and developmental chart
